

E1E Updates - The E1E Daily to Launch for Community Go-Live
Sept 5, 2022
Final

The E1E Daily to launch for Go-Live

All Community HSO and RCM staff will receive e-newsletter September 24-October 7

Coming soon: A dedicated e-newsletter to share daily summaries of the upcoming E1E Community activation, beginning Saturday, September 24, 2022. **This publication is in addition to weekly Community HSO e-newsletters and other standard email communications.**

The E1E Daily will be emailed every day through Friday, October 7, to all E1E team, stakeholders and Community HSO and RCM staff (including Providers and CIS managers).

Coverage will include the top critical issues addressed each day by Community HSO leaders in briefings with their teams. Focus will be on patient safety, productivity, work effort, patient experience, revenue and organizational impact of the new Epic1 applications.

Specifically, look for highlights published under these headings:

- **Hot Topics**
- **E1E Wins**
- **Training Updates** (includes new tip sheets, Learning Home Dashboard updates, etc.)
- **Go-Live Stats** (open/closed tickets, E1E Help Desk stats, etc.)
- **Daily E1E Go-Live Resources and Contacts:** Super Users, ATEs (At-the-Elbow support), etc.

Every issue of *The E1E Daily* also will be posted on the recently announced [E1E Community Go-Live Information Hub](https://Epic1.org/Community) from Epic1.org/Community.
